Wave power – could have many benefits – sheltered	Wave energy Scotland More primary research	Scottish and UK collaboration	By 2030	Wave power – could have many benefits –

Transition Edinburgh. Contributions from event November 16 Local Energy

area behind	and device selection			sheltered area behind
Thorium nuclear reactors – less dangerous waste	Not with military link			Thorium nuclear reactors – less dangerous waste
Behaviour change understand system domestic and business eg fridges off at peak times	Policy level – fund sharing information many ways	Engage communities		
Use programmes well	individuals			
Transport Electric vehicles	Tesla Uber			
Killer fumes banned in cities	councils			
Driverless EVs/ car clubs/car shares	?			
Bring back bottle re-use incentives	Greenpeace started initiative			
Implement hierarchy of waste	everyone	If education does not do it (seems not to) incentives and fines		
Balance results – be aware of and monitor choices	?			
Fracking	Scottish Govt + civic society			Started to discuss but ran out of time; No to fossil fuel, no to setting up whole new industry, but Yes to jobs and better to use local than import
Change procurement requirements	council	Planning legislation	When we come out of Europe
